A prominent physician calls the kiss "an elegant disseminator of disease." He says, "fever is spread by it, so are lung diseases." Out upon the gnarled and sapless vagabond! Evidently kisses are not for such as he, and the old fox says the grapes are sour. Let him devote himself to making our women healthy and blooming that kisses may be kisses. This can surely be done by the use of Dr. Pierce's Favorite Prescription, which is simply magical in curing diseases peculiar to females. After taking it for a reasonable length of time there will be no more irregularity, backache, bearing-down sensations, nervous prostration, general deblity and kindred ailments. It is the only medicine for women, sold by druggists, under a positive guarantee from the manufacturers, that it will give satisfaction in every case, or money refunded.

A bachelor editor gives the following

graphic description of the usefulness of man: A woman never fully realizes how useful a man is until she hustles him out these cold mornings to make the fires, while she turns over for another snooze, as he is wrestling with the breakfast, burning his fingers, for a man always picks up hot skillets and uses his finger for a lifter, or pokes it into the teakettle to see whether the Furnished weekly to the INTELLIGENCER water is boiling. You can always tell by Charles C. Wallace, recorder of deeds when he burns himself from the way he howls and uses "cuss" words. The women have won on the question of admitting the members of their sex to the Methodist general conference says the Chicago Herald. The vote of the churches reported to date is nearly 2.100 00 300,000, with a majority in favor of the women of over 75,000. Some sections of the country are yet to be heard from, but the additional returns will not materially effect these figures. The 2,260 00 women have won a signal victory, and the result of the balloting is an interesting illustration of the liberalizing 850 00 influences which now prevail in a relig-

ious denomination which has always

rigidly excluded women from such a privilege as it now accords her. Say nothing—know nothing— Lend nothing—we nothing— Beg nothing—steal nothing— Give nothing—feel nothing— Prize nothing—scorn nothing—
